GREG S. GRIFFIN
STATE AUDITOR
(404) 656-2174

Independent Auditor's Report

Board of Trustees of the Georgia Firefighters' Pension Fund
Mr. C. Morgan Wurst, Executive Director

We have audited the accompanying schedule of employer and nonemployer allocations of the Georgia Firefighters' Pension Fund (the Fund), a component unit of the State of Georgia, as of and for the year ended June 30, 2020, and the related notes. We have also audited the total for all entities of the columns titled net pension liability, total deferred outflows of resources, total deferred inflows of resources, and total employer pension expense excluding that attributable to employer-paid member contributions (specified column totals) included in the accompanying schedule of pension amounts by employer and nonemployer of the Fund (collectively, the Schedules) as of and for the year ended June 30, 2020, and the related notes.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these Schedules in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the Schedules that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on the Schedules based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the Schedules are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the Schedules. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Schedules, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Fund's preparation and fair presentation of the Schedules in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the Schedules.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinion

In our opinion, the Schedules referred to above present fairly, in all material respects, the employer and nonemployer allocations and net pension liability, total deferred outflows of resources, total deferred inflows of resources and total employer pension expense excluding that attributable to employer-paid member contributions of the Fund as of and for the year ended June 30, 2020, in accordance with accounting principles generally accepted in the United States of America.

Other Matter

We have audited, in accordance with the auditing standards generally accepted in the United States of America, the financial statements of the Fund as of and for the year ended June 30, 2020, and our report thereon, dated May 14, 2021, expressed an unmodified opinion on those financial statements.

Restrictions on Use

Our report is intended solely for the information and use of Fund management, the Board of Trustees, the Fund employers, nonemployer contributing entities, and their auditors and is not intended to be and should not be used by anyone other than these specified parties.

Respectfully submitted,

Greg S. Griffin
State Auditor

May 14, 2021

GEORGIA FIREFIGHTERS' PENSION FUND

(A Component Unit of the State of Georgia)

Notes to Schedule of Employer and Nonemployer Allocations and Schedule of Pension Amounts by Employer and Nonemployer

June 30, 2020

Note 1: Plan Description

The Georgia Firefighters' Pension Fund (the Pension Fund) was created in 1955 by an act of the Georgia General Assembly to provide retirement benefits for qualified firefighters. The Pension Fund administers a cost-sharing, multiple-employer defined benefit pension plan as defined in Governmental Accounting Standards Board (GASB) Statement No. 67, *Financial Reporting for Pension Plans – an amendment of GASB Statement No. 25*.

Any person employed as a firefighter or enrolled as a volunteer firefighter within the State of Georgia or any regular employee of the Pension Fund is eligible for membership in the Pension Fund. The various fire departments located within the State of Georgia, as the employers of the members of the Pension Fund, do not make contributions to the Pension Fund. The State of Georgia provides nonemployer contributions to the Pension Fund through the collection of insurance premiums tax. These nonemployer contributions are recognized as revenue by the Pension Fund when collected from the insurers.

Note 2: Basis of Presentation

The Schedule of Employer and Nonemployer Allocations and Schedule of Pension Amounts by Employer and Nonemployer (the schedules) are prepared on the accrual basis of accounting in accordance with U.S. generally accepted accounting principles.

Note 3: Components of Collective Net Pension Liability

The components of the collective net pension liability of the participating employers and nonemployers at June 30, 2020 were as follows:

Total pension liability	\$ 1,144,364,448
Plan fiduciary net position	<u>(924,905,112)</u>
Net pension liability	<u>\$ 219,459,336</u>

Plan fiduciary net position as a percentage of total pension liability 80.82%

Actuarial Assumptions

The collective total pension liability was determined by an actuarial valuation as of June 30, 2020, using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.75%
Salary increases	N/A
Investment rate of return	6.0%, net of pension plan investment expense, including inflation

GEORGIA FIREFIGHTERS' PENSION FUND

(A Component Unit of the State of Georgia)

Notes to Schedule of Employer and Nonemployer Allocations and Schedule of Pension Amounts by Employer and Nonemployer

June 30, 2020

Mortality rates for pre-retirement were based on the RP-2000 Employee Mortality Table projected to 2025 with Projection Scale BB. Mortality rates for post-retirement and for dependent beneficiaries were based on the RP-2000 Blue Collar Mortality Table projected to 2025 with Projection Scale BB set forward 1 year for males and 4 years for females. For current disability retirees, mortality rates are based on the RP-2000 Disabled Mortality Table projected to 2025 with Projection Scale BB set forward 5 years for males and 3 years for females, however there are no longer any disability benefits included in the plan.

The actuarial assumptions used in the June 30, 2020 valuation were based on the results of the last actuarial experience study dated November 4, 2015.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate arithmetic expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These assumptions are converted into nominal assumptions by adding inflation, then combined by weighting them by the target asset allocation percentages. Finally, the arithmetic portfolio expected return is converted into a geometric expected return using assumed asset class standard deviations and correlations.

Discount Rate

The discount rate used to measure the total pension liability was 6.00%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that nonemployer contributions will remain at the level contributed the previous fiscal year. Based on those assumptions, the Pension Fund's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Collective Net Pension Liability to Changes in the Discount Rate

The following table presents the collective net pension liability of the Pension Fund, calculated using the discount rate of 6.00%, as well as what the Pension Fund's net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (5.00%) or 1-percentage-point higher (7.00%) than the current rate:

	1% Decrease (5.00%)	Current discount rate (6.00%)	1% Increase (7.00%)
Collective net pension liability	\$ <u>370,130,490</u>	\$ <u>219,459,336</u>	\$ <u>94,926,541</u>

GEORGIA FIREFIGHTERS' PENSION FUND
(A Component Unit of the State of Georgia)

Notes to Schedule of Employer and Nonemployer Allocations and
Schedule of Pension Amounts by Employer and Nonemployer

June 30, 2020

Note 4: Special Funding Situation

The State of Georgia, although not the employer of the Pension Fund's members, makes contributions to the Pension Fund through the collection of insurance premiums tax as specified by O.C.G.A. §47-7-61. The State makes all these contributions to the Pension Fund on behalf of the employers. Therefore, these employers are considered to be in a special funding situation as defined by GASB Statement No. 68, *Accounting and Financial Reporting for Pensions – an amendment of GASB Statement No. 27*.

Since the employers of the Pension Fund's members do not contribute directly to the Pension Fund, there is no net pension liability to recognize for each employer. However, the notes to each employer's financial statements must disclose the portion of the nonemployer contributing entity's share of the collective net pension liability that is associated with that employer. In addition, each employer must recognize its portion of the collective pension expense of the State as well as recognize revenue contributions from the State in an equal amount.

Note 5: Allocation Methodology

GASB Statement No. 68 requires participating employers and nonemployer contributing entities to recognize their proportionate share of collective net pension liability and pension expense. These schedules are prepared to provide employers and nonemployer contributing entities with their calculated proportionate share.

As discussed in Note 4, the fire departments, as employers of the Pension Fund's members, do not make contributions to the Pension Fund; therefore, the proportionate share allocation for each employer is 0%. The proportionate share attributable to the State of Georgia, as the nonemployer contributing entity, is therefore 100%.

The amounts attributable to the State of Georgia, as the nonemployer contributing entity, have been allocated based on the number of active plan members employed by or volunteering for each fire department.
